RE: Science Exhibit
Chicago Conference, May 18-21, 1976

STAT

Dear [REDACTED]

We appreciate the fact you and your associates took the time to participate in our science and engineering conference by sponsoring and manning a booth. We have received many commendations concerning the exhibit from many participants and visitors.

If you recall, NASA gave many awards to the four category winners. For your information, the conference will be held in Houston in 1977. We would like for you to plan to participate now--not only to sponsor a science exhibit but also to consider making either a cash, scholarship, or another type of award available to division and category winners.

Similarly, the Consortium is always desirous of increasing its membership. If you are interested in becoming a member, we would more than happy to provide you with the necessary information.

In any event, we will begin making our plans for the 1977 conference in the very near future. If you can think of any way--any way at all--that you and/or your associates would like to become further involved, we will be more than happy to hear from you.

With warm regards,

Hanford D. Stafford
Hanford D. Stafford
Executive Director

Director, EEO
Director, Personnel
EXO/DDS&T
Asst. to DCI (Mr. Falkiewicz)

This is in response to the Agency
exhibit at the Black Consortium in Chicago.
The same exhibit is now being shown at the
NAACP Convention in Memphis.
